11. Given:

```
class Base {
protected:
        void protectedMethod();
};

class Derived : public Base {

};

int main() {
        Base b;
        b.protectedMethod();   // line A
        Derived d;
        d.protectedMethod();   // line B
}
```

Which of the following is true?:

    a. line A will compile
       line B will compile

    b. line A will compile
       line B will not compile

    c. line A will not compile
       line B will compile

    d. line A will not compile
       line B will not compile
